# KingFloor® EP200T System

Heavy duty epoxy topping for floor surfaces applied at 5 - 15 mm

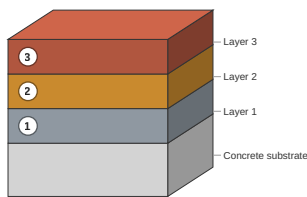

KingFloor EP25 | KingFloor Primer | KingFloor EP200T

<b>Manufacturer</b>	KingKrete	<b>Resin Base</b>	Epoxy
<b>System Reference</b>	FL-EP-EP200T	<b>No. of Layers</b>	3
<b>System Type</b>	Heavy duty epoxy topping for floor surfaces applied at 5 - 15 mm		
<b>Document</b>	System Information Sheet · Issue 01.2026 · V1.0		

## 1. SYSTEM OVERVIEW

KingFloor EP200T is a three-pack solvent free, epoxy-based topping that provides floor surfaces with a seamless, hygienic and cosmetically attractive finish. KingFloor EP200T is applied by trowel and can be coved and laid to falls and has a very good durability towards pedestrian and vehicular traffic. It also has very good resistance towards many of the chemicals commonly found in an industrial environment (consult our Technical department for further details).

## 2. SYSTEM BUILD-UP

NO.	COMPONENT / LAYER	FUNCTION
1	KingFloor EP25	Epoxy adhesive / resin
2	KingFloor Primer	Primer / bonding coat
3	KingFloor EP200T	Epoxy floor coating
-	Concrete substrate	Prepared base (shot-blast / grind)

Indicative system cross-section

## 3. TYPICAL APPLICATIONS

- 🏭 Heavy industry factories
- 🏭 Paint workshops
- 🏭 Steel works
- 🏭 Dairies
- 🏭 Chemical factories
- 🏭 Oil refineries
- 🏭 Freezers and refrigerated storage

System overview and applications summarised from the individual product Technical Data Sheets (TDS). Refer to the relevant KingKrete product TDS and Safety Data Sheets for complete specifications, mixing, coverage and application details.
